

MASA Complete Production Plant for Concrete Products

TECHNICAL SPECIFICATIONS

Manufacturer: MASA

Description: Production plant for concrete products

Year of construction: 1996

MAINLY CONSISTING OF

01) Stationary horizontal compulsory mixer RECORD-HM 1500/2250

- Dry filling: 2.250 litres
- Output volume: 1.500 litres

02) Dosing and weighing equipment for cement, water, aggregates

- Cement silos
- Linear hopper bin with weighing belt for 4 components

03) Stationary fully automatic block making machine RECORD 9001 V

- Board size: 1.200 x 1.100 x 50 mm
- Block height: up to 400 mm
- Mould height: 450 mm

04) Rope transport system, roller-supported, for the disposition and handling of the production boards

05) Lifting and rotating cage with trolley

- For removing products from the production board onto a steel table

06) Stacking and packing system

- Fully automatic, for lifting and assembling the hardened bricks into packs of bricks

07) Slab conveyor

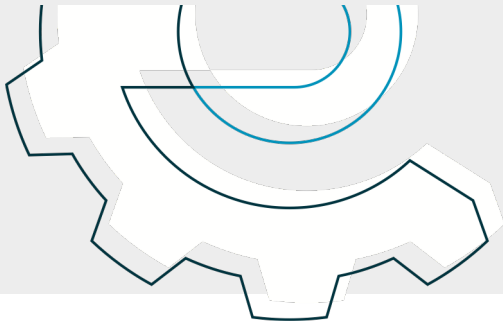

- Length: 16.000 mm
- Width: 1.200 mm
- For picking up the stone packs

08) Pallet magazine and pallet insertion device

- Arranged laterally to the slab conveyor Capacity approx. 10 pallets

09) SIGNODE plastic strapping machine SLM-AK-200-H

10) Extensive range of accessories, individual components, subsystems

Datasheet

Prod. no. BE 026

Date 03.09.2024

11) Control systems and electrical engineering

SPECIFIC COMMENT

- Fully functional and complete production line for concrete products
- Good condition and modernised over the years
- Complete technical documentation available
- Various moulds available

If you are interested, we would be happy to send you a detailed offer with photo documentation.

Yours sincerely,

EuroConsult Dimitrios Piretzidis
